Versatile, easy to use colour multifunction printers for the busy office

The MC300 Series brings high quality colour and true multifunctionality within the reach of individuals and small workgroups.

They are exceptionally affordable to own and run, and compact enough to fit seamlessly into any workspace. So easy to install and operate that any user will very quickly be able to print, copy, scan and fax* with outstanding results.

The highly dependable single-pass digital LED technology and straight paper path deliver superior reliability and performance that your business can rely on.

Inviting and easy to use operator panel

MC360

Inspiring results

With the MC300 Series, prints, scans, copies and faxes* look sharper, more vibrant and professional, creating a quality impression with every document you create.

- Using ProQ2400 Multi-level print technology, the MC300 Series brings out sharper detail and contrast, for livelier images and clearer text.
- Single-pass digital LED printing and microfine High Definition Toner mean improved colour, depth and finish.
- Photo Enhance ensures stunning pictures and impressive diagrams, even on normal office paper.
- Auto Colour Balance ensures colour consistency throughout the life of the printer.
- Industry leading software application included to streamline the electronic distribution of information, making document handling, file sharing and archiving easy.
 - Nuance PaperPort converts hardcopy into digital content
 - Nuance OmniPage converts documents into editable electronic files

Impressive versatility

The MC350 and MC360 give you all the functionality you want, exactly where you need it most.

- The small size and footprint makes it easy to place on a desktop or convenient central location for shared use, as both models are network ready.
- The MC360 can provide the whole team with their entire printing, copying, scanning and faxing* needs. Whilst the multitasking capabilities improves productivity, as you can scan and fax* even when printing.
- The 50-sheet automatic document feeder supports unattended copying, scanning and faxing*, allowing you to return to your core business tasks.
- In-the-box software, such as Template Manager 3.0, allows businesses to produce highly professional documents from business cards to 1200mm banners* using a suite of pre-designed templates, without the added expense of outsourcing.

Ease of use

Thanks to an intuitive operator panel everyone in the team gets easy access to the entire suite of copy, scan and fax* functions.

- With the MC300 Series, it is possible to scan directly to the network without the need for additional software or a locally attached PC. Simply scan and go.
- Scan to a variety of locations including; e-mail, FTP, CIFS & USB.
- Embedded LDAP allows integration of contact and email data from an existing directory server saving you time and improving the reliability of document delivery.
- Network Set Up enables fast and easy installation over the network
- PrintSuperVision provides easy and convenient remote device management for your IT administrator.

Proven reliability

The MC350 and MC360 use OKI's single pass LED technology, proven to work more reliably than alternative technologies.

- The ultra-reliable digital LED print heads have no moving parts and are guaranteed for life.
- The straight paper path offers excellent print speed and reliability without compromising quality.
- 3 years extended on-site warranty, upon registration within 30 days of purchase.
