Notation used in this manual

 WARNING	Indicates information that, if ignored, could possibly result in serious personal injury or even death due to incorrect handling.
 CAUTION	Indicates information that, if ignored, could possibly result in personal injury, physical damage, or damage to equipment due to incorrect handling.
Attention	Indicates important information about the printer.
MEMO	Indicates additional information and points which may be useful to know regarding a topic.
	Indicates a place with more detailed information.
	Shows an image of the label to be used as an example.
	Indicates the buttons on the printer.
"Name"	Indicates the menu items, messages shown on the display, or the name of a manual. Example: "On", "Start print?"

Safety Instructions

For your safety, read the attached documents carefully to use this product correctly. After you have read all instructions, keep this manual handy for future reference and to make your concerns clear. Items below indicate safety precautions to protect users, their surroundings and their property from possible injury or damage. Precautionary notations are categorised as follows according to personal injury and damage to the equipment if the instructions are ignored or the equipment is misused.

 DANGER
This symbol indicates information that, if ignored, could possibly result in serious or fatal personal injury. Take extra caution in performing procedures with DANGER headings.
 WARNING
This symbol indicates information that, if ignored, could possibly result in serious personal injury or even death due to incorrect handling.
 CAUTION
This symbol indicates information that, if ignored, could possibly result in personal injury, physical damage, or damage to equipment due to incorrect handling.

The following describes the meaning of each symbol used in the precautions.

 This indicates an important reminder.
 This indicates a prohibited item.
 This indicates a mandatory procedure.

DANGER

When handling batteries

	If any liquid from the battery gets into your eyes, promptly wash it out with clean water for more than 10 minutes and consult your doctor at once. If you do not, the liquid may cause loss of eyesight. Never disassemble or modify the battery pack. This may cause fire, explosion, leakage, overheating or damage. Do not expose the battery to fire or heat it. This may cause fire, explosion, leakage, overheating or damage.
---	---

WARNING

When using the AC adapter and power cable

	The cords included with this product contain chemicals, including lead, known to the State of California to cause birth defects or other reproductive harm. Wash hands after handling. (This notice is provided in accordance with Proposition 65 in Cal. Health & Safety Code §25249.5 and following.)
	Do not use any AC adapter or power cable other than the dedicated AC adapter and power cable. Do not use the AC adapter with other than the specified voltage also. Otherwise, damage, overheating, fire or electric shock may occur.
	Take the following precautions when handling the AC adapter and power cable. <ul style="list-style-type: none"> • Make sure to avoid using multi-socket adapters. • Make sure the plug is not dusty before inserting it into an outlet. • Insert the plug firmly into the outlet. • Do not hold the AC adapter or the plug with wet hands. • Do not pull the power cable when disconnecting the plug. Be sure to hold the plug when disconnecting it. • Do not make any modification to the AC adapter or power cable. • Do not apply strong shocks to or put a heavy object on the AC adapter or power cable. • Do not bend or twist the AC adapter or power cable forcibly. • Do not place the AC adapter or power cable near a heater.
	Do not use any damaged AC adapter or power cable. Otherwise, damage, overheating or smoking may occur, which may result in fire or electric shock.
	Do not touch the plug during thunderstorms.

When handling batteries

⚠	Keep the battery pack away from fire or flame if it produces a strange odor or leakage. Otherwise fire or explosion may occur.
⚠	Should any battery liquid get on skin or clothing, promptly wash it off with clean water. If you do not, the liquid may damage your skin.
⚠	Do not expose the battery to water. Do not allow water to contact the terminals. This may cause fire, overheating, or electric shock.
⚠	Keep batteries out of reach of children. They are extremely dangerous if swallowed. Contact a doctor immediately if swallowed.

When using this product

⊘	Do not apply any strong force or shocks to the product such as standing on, dropping or hitting it. Otherwise, the product may be broken, which may result in fire or electric shock. If it is damaged, turn off the power immediately, unplug the AC adapter and remove the batteries, and then contact the Epson customer support center. Continuous use may result in fire or electric shock.
⚠	Take care not to spill any beverage such as tea, coffee or juice onto the product, or to spray aerosol insecticide. It may cause malfunction, fire, or electric shock. If any liquid has been spilled on the product, turn off the power, unplug the AC adapter and remove the batteries immediately, and then contact the Epson customer support center. Continuous use may result in fire or electric shock.
⚠	Do not touch the printhead because it becomes very hot. Otherwise, there is a risk of burns.
⊘	Do not open any covers other than the top cover or battery cover. Doing so may result in fire or electric shock. Always use the product as instructed in this manual. Otherwise, damage or injury may occur.
⊘	Never modify or disassemble this product. Doing so may cause fire or electric shock. Do not carry out any operations not described in this manual, or the product may break or cause injury.
⚠	If any of the following abnormalities is observed, turn off the power immediately, unplug the AC adapter and remove the batteries, and then contact the Epson customer support center. <ul style="list-style-type: none"> • If smoke, strange odors or unexpected noises come from the product • If liquid or foreign objects get inside the product • If the product has been dropped or damaged
⚠	Do not touch the tape eject slot, during printing or when the auto cutter is in operation. Otherwise there is a risk of injury.

Others

⊘	Do not use or store the product, batteries, AC adapter, power cable, or tape cartridges in the following places. <ul style="list-style-type: none"> • In direct sunlight. • Where it may become extremely hot such as in a vehicle with the windows closed. • Where it may become extremely hot such as near a heater or the temperature becomes very unstable such as near the exhaust duct of an air conditioner. • Where the product may get wet due to a shower or rain such as in a bathroom or outdoors. • In a dusty place or where the product may be exposed to smoke or steam such as near the kitchen or a humidifier. • On an unstable place such as on a shaky table or on an inclined place. • Where it might be subjected to vibration or shock. • Near high-voltage power lines or something that generates a magnetic field.
⚠	Keep the plastic bags used to contain the product or this manual out of reach of children. Children may suffocate if they swallow them or put their heads into the bags.

⚠ CAUTION

When handling batteries

⚠	If liquid leaks from a battery, wipe it off with a cloth and replace it with a new one. If the liquid comes in contact with your skin, wash it away with water immediately.
⊘	If the batteries are used incorrectly, they may cause leakage, overheating, explosion, erosion, or damage to the product, which may result in fire or injury. <ul style="list-style-type: none"> • Do not use new ones and old batteries together, or mix different types of batteries. • Use AA alkaline batteries. • Use batteries in the correct directions. • Take the batteries out immediately when they have no power remaining. • Take the batteries out if you do not use the product for a long time. • Do not heat batteries or throw them in fire or water. • Do not pinch the batteries with metal tweezers or use any pointed sharp metal object such as the tip of a mechanical pen or ball-point pen when taking the batteries out.
⚠	When disposing of used batteries, make sure to follow the regulations.

When using the AC adapter

	Do not unplug the AC adapter while the product is in operation, otherwise printing may not be successful.
	Do not use the AC adapter in a small, confined space, or cover it with a cloth. Otherwise, the AC adapter may overheat and deteriorate.

When using this product

	Do not stand or put anything heavy on the product or place it on an unstable place such as on a shaky table or on an incline. Otherwise, the product may fall and cause injury.
	To ensure safety, unplug this product before leaving it unused.
	Before cleaning, make sure to unplug the AC adapter from the outlet, and remove the batteries.
	Do not use a moistened cloth or solvents such as alcohol, thinner or benzene.
	Do not block or insert objects into the supplied AC adapter socket or the tape eject slot.

■ When handling tape cartridges

- Make sure to use a dedicated LK Tape.
- Some types of tape cannot be cut by the cutter. For the latest information on the Auto cut and/ or Half cut disabled tape types, see the box of tapes or visit your local Epson website.
- Do not drop it or disassemble it. Doing so may cause damage.
- Do not pull out the tape forcibly by hand. But make sure to feed the tape with . Otherwise, the tape cartridge may be broken and unusable.
- Avoid using a tape cartridge without remaining tape. Doing so may cause overheating of the printhead, which may result in damage or malfunction.

MEMO

Tape cartridges contain ink ribbons in them. When disposing of tape cartridges, make sure to follow the local regulations for disposal.

■ Other cautions

Notes on usage

- Do not touch the thermal head. Static electricity may damage the thermal head.
- Do not plug in and unplug the AC adapter while printing. Power may be cut off.
- The Li-ion battery cannot be charged while printing.
- Operate the keyboard gently.
- Take care not to cut your fingers when cutting the label with scissors.
- Do not attach a label on human bodies, living things, public facilities or other people's belongings.
- Be sure to turn the power off after use.
- Powering off message is displayed while turning off the product. Do not remove the AC adapter until the message disappears.
- Be sure to replace batteries with the power turned off. If you replace the batteries while the product is powered, files or data stored on it may be deleted.

■ Recycling the Battery

Contains a lithium-ion battery. Must be recycled or disposed of properly.

MEMO

Do not disassemble the battery pack.

Troubleshooting

■ Messages

This section explains the remedies when the following messages appear on the display.

Check battery Charge Li-ion!	The battery runs out of power. Connect the AC adapter to the printer and charge the battery. For details,  "Charging the Li-ion battery"
Check battery Change alkaline	The batteries run out. Turn off the power and replace all batteries with new ones.
Cover open!	Top cover is open. Close the top cover.
Insert tape	Check if the tape cartridge is loaded or correctly set. For details,  "Installing a tape cartridge"
Check tape cartridge	The loaded tape is not supported. Insert a correct cartridge.
No more sequence No.!	Only up to 2 sequence numbers can be inserted.
No more barcode!	Only up to 2 barcodes can be inserted.
QR CODE too big!	Perform either of the following: Use a wider tape. Reduce the text or cell size. Lower "ECC Level".
Overheated!	The printhead is overheated. Turn off the power and remove the tape cartridge, then leave the printer until it cools down.
Trash at slot Remove trash	Tape remains in the tape eject slot. Remove the tape.
Remove cut tape	Unable to start printing because cut tape remains in the tape eject slot. Remove the tape from the tape eject slot.

■ Problem

Unable to charge Li-ion battery

Is the Li-ion battery correctly installed? Check that the Li-ion battery is correctly installed.
Is the AC adapter securely connected? Connect the AC adapter and the power cable firmly to the power socket of the printer, the AC adapter connector and the outlet.

Unable to detect the tape correctly

Is the tape cartridge correctly installed? Check that the tape cartridge is correctly installed.
Is the label for detecting the tape cartridge clean? If not, wipe the dirt off with a soft cloth.
Is the detection sensor of the printer clean? If not, wipe the dirt off with a soft cloth.

MEMO

If none of the above has solved the problem or the symptom is other than the above, contact the Epson customer support center.

1. Installing the Li-ion battery

Before using the printer for the first time, charge the Li-ion battery (C52CE97010). Read also the safety precautions for the rechargeable battery described previously in this manual.

For details on the handling of Li-ion battery, see "C52CE97010 Lithium-ion Battery Pack User's Manual".

⚠ WARNING

Be sure to use the dedicated Li-ion battery (C52CE97010). Using a battery other than the one specified may cause fire, explosion, leakage, overheating or other damage.

⚠ CAUTION

When disposing of used batteries, make sure to follow the regulations.

1. Open the battery cover.

2. Install the Li-ion battery in the correct orientation.

3. Close the battery cover.

■ Charging the Li-ion battery

You can charge the dedicated Li-ion battery (C52CE97010) with the printer.

To charge the battery, connect the AC adapter to the printer with the Li-ion battery installed.

MEMO

- The Li-ion battery cannot be charged while printing.
- When the power of the charged Li-ion battery seems to run out quickly, replace it with new ones.
- There is likely to be a charging error or battery error in the following cases.
 - The charge LED flashes during charging.
 - New Li-ion battery takes significantly longer to charge than the estimated charging time (less than 3 hours).

■ **Using alkaline batteries**

You can use alkaline batteries instead of Li-ion battery. When using alkaline batteries, install them in the correct orientation.

CAUTION

When you have printed continuously for 30 minutes using alkaline batteries, leave the printer for at least one hour to allow the batteries to cool down.

■ **Connecting the AC adapter**

Connect the AC adapter as shown below.

■ **Using Label Editor**

Label Editor is an application software for editing label. When this software is installed on your computer, you can transfer the created cable label data to the printer.

📄 "Transferring Cable Label Data"

For how to install and operate the software, see "Label Editor User's Guide".

1. **Connect the USB cable to the printer.**
2. **Connect the other connector of the USB cable to the computer.**

2. Installing a tape cartridge

⚠ CAUTION

- Make sure that the power is turned off.
- You cannot use tape other than LK-tape.
- Make sure the top cover is closed firmly.
- If you opened the top cover while a tape cartridge is installed, check that the tape end is put into the tape eject slot before beginning operation.
- Take care to keep the label for detecting the tape cartridge and the sensor of the printer clean. Otherwise, tape may no longer be detected correctly.
- Do not touch the sensor directly with your fingers.

1. Rewind the ink ribbon.

Use a pen or a pencil.

2. Open the top cover.

Creating Labels for Punch Block P.Block

You can create labels to identify at a glance the numbers for the wires or pins connected to a punch block.

Ex

1	4	8	12	16	20	24
25	28	32	36	40	44	48

Upper count

Lower count

1. Press P.Block.
2. Select the blocks type with ▲/▼ and then press ↵.

In this example, we will select "4pairs".

Blank: Creates a table of two rows and one column.

3. Select the text type with ▲/▼ and then press ↵.

In this example, we will select "Pins".

1	4	8
25	28	32

1	2
7	8

Pins

Seri.

Blank

4. Enter the upper count and then press ↵.
In this example, we will enter "1".
5. Enter the lower count and then press ↵.
In this example, "25" is entered automatically.
6. Enter the label length and then press ↵.
Setting range: 1 to 99.9 cm
7. Press 🖨.

Creating Labels to Wrap Around Cable

You can repeatedly print text so that it can be seen regardless of the angle from which the cable is viewed.

1. Press .
2. Select the length type with / and then press .

In this example, we will select "Length".

Dia: Sets the length by cable diameter.
(Setting range: 0.25 to 15 cm)

Length: Sets the length by label length.
3. Enter the label length and then press .

Setting range: 1 to 99.9cm

4. Select On or Off of repeat text with / and then press .

In this example, we will select "On".

5. Select the type of margins with / and then press .

In this example, we will select "Long".

Tape/3: Sets margins that are a 1/3 of the tape width.
Tape: Sets margins that are equal to the tape width.

6. Enter the text.
7. Press .

Creating Labels to Wrap around Cable like a Flag

This label is useful for differentiating cables because the flag portion of the label wrapped around the cable is easy to see.

1. Press + .
2. Select the setting method of space length with / and then press .
In this example, we will select "Length".
Dia: Sets the length by cable diameter.
(Setting range: 0.25 to 15 cm)
Length: Sets the length by space length.
3. Enter the space length and then press .
Setting range: 0.25 to 30 cm
4. Enter the text length and then press .
Setting range: 0.25 to 30cm
5. Select the type of separator with / and then press .
In this example, we will select "Line".

6. Select the orientation with / and then press .

In this example, we will select "Hori.2".

Hori.1	USB A001	USB A001
Hori.2	USB A001	A001
Vert.1	USB A001	USB A001
Vert.2	USB A001	A001

7. Enter the text of block 1 and then press .
8. Enter the text of block 2.
9. Press .

Creating Sequentially Numbered Labels

The number is automatically incremented each time a label is printed. Up to four digits including numbers (0 to 9) and alphabet letters (a to z and A to Z) can be entered.

Ex

1. Press
2. Enter the start value of the sequential numbers and then press .
In this example, we will enter "0001".
3. Select the number of repetition with / and then press .
In this example, we will select "2 times".
4. Press + .
5. Select "Print copies" with / and then press .
6. Enter the number of print copies and then press .
In this example, we will enter "6".
7. Select "Start print?" with / and then press .
Printing starts.

Creating Labels with Block Sequence Numbers Assigned

You can assign sequential numbers to blocks. Up to four digits including numbers (0 to 9) and alphabet letters (a to z and A to Z) can be entered.

Ex

Create the blocks in advance. "Adding Block"
In this example, we have created three blocks.

1. Press +
2. Enter the start value of the sequential numbers and then press .
In this example, we will enter "CN01".
Sequential numbers are automatically assigned to block 2 and block 3.
3. Select the number of repetition with / and then press .
In this example, we will select "1 time".
4. Press .

Customizing Labels

Setting the Format and Style (Edit menu)

Procedure for setting

1. Place the cursor.

Place the cursor on the left of the characters to which you want to apply a function.
If you apply the function to a specific line or block, confirm that the cursor is in the line or block.

2. Press .

Example: to apply "Bold & Italic"

3. Select "Bold & Italic" with / and press .

4. Select "B + I" with / and press .

5. Select an area to which you want to apply the function with / and press .

When "Character" is selected, the function is applied to all characters on the right of the cursor.

MEMO

The setting items displayed when you press differ depending on the label type you create.

You can decorate your label by setting the following.

Layout

Left, Center, Justify, Right

Adjusts the layout when multiple lines are used.

Frame & Table

Decorates the text with a frame or inserts a table.

Separator

Decorates the text of a die cut label with a frame.

For the frames that can be inserted "Die-Cut label"

Style

Outline, Normal, Gray, Shadow, S+O

Applies a character style to text.

Char. spacing

None, Narrow, Normal, Wide

Sets the inter-character spacing.

Border & Line

Strikeout, Underline, None, Border, Round brdr, Shading, Brdr mesh, Round mesh

Applies border, underline, shade etc. to text.

Char. Width

Smaller, Small, Narrow, Normal, Wide

This allows you to change the width or height of characters.

Transferring Cable Label Data

If you transfer a label data you created to the printer, you will be able to print labels for cables without connecting to a computer. You can also export the label data so that you can use it on a smart device.

Operation flow

Operation on computer

Label Editor

1. Create the label for transfer

Data Transfer Tool

2. Transfer the label data

Operation on the printer

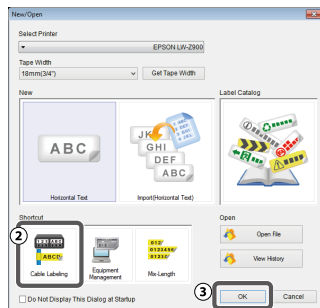

3. Print from the printer

MEMO

- You can download "Label Editor" (PC application for editing labels), printer drivers, and "Label Editor User's Guide" from your local Epson website.
- For how to install and operate Label Editor, see "Label Editor User's Guide".
- Connect the printer and computer with a USB cable in advance.

1. Create the label for transfer

1. Start Label Editor.
2. Click [Cable Labeling] in the "New/Open" window.
3. Click [OK].

4. On the "Style" tab, turn on the checkbox for "Create Transfer Data" and select [For Printer] or [For Smart device].

For Printer:
Exports the label data to be transferred to the printer.

For Smart device:
Exports the label data to be transferred to a smart device.
