

Card Scanner 200

Scan business contacts directly into your PC fast!

- Scans business cards, ID cards, cheques, colour photos and receipts up to 914 mm (36") long
- Small, lightweight & portable
- Hi Speed USB 2.0 Powered – no external power support required
- Converts contact information from business cards into a convenient, searchable digital database
- Perfect Images from Imperfect Originals with Kofax VRS technology

Xerox Card Scanner 200

The lightweight and portable Card Scanner 200 is the perfect companion for the mobile professional – a palm-sized mobile A6 scanner which is packed with advanced scanning functions and needs no AC outlet. In addition to scanning business cards, it also scans all types of receipts, photos, cheques and plastic embossed cards, such as driving licences and membership cards – in colour, if required!

Business cards are scanned, recognised intelligently and then the data is synchronised with your Outlook contacts or smartphone right away. Your receipts no longer get lost (and you are not left out of pocket). You can work on and complete your expenses report before you get home.

Say Goodbye to your Business Card Holder

Whatever your occupation, keeping in touch and networking with your contacts is invaluable. In this fast changing environment we cannot ignore the importance of managing our contacts digitally. With the included software, keep your contacts on hand digitally for fast, and easy access, anytime! You can click and transfer the selected data to your PDA or smartphone, export new data, or synchronise updated data

to portable devices and popular software such as Outlook. NewSoft Presto! BizCard saves you time and eliminates duplicated information often caused by synchronising regularly used data. It keeps your database up to date with the most accurate information. It's your best companion for business.

Perfect Scans from Imperfect Originals

Visioneer OneTouch with Kofax VRS (VirtualReScan) technology is integrated into the scanner driver so that it is working behind the scenes so that you get perfect scans from imperfect originals without having to do a thing. VRS also eliminates the need to rescan documents through automatic cropping, straightening, brightness control and edge clean-up. All this is integrated into Visioneer OneTouch and AutoLaunch so your entire scanning requirements are achieved by simply inserting the card or document into the scanner.

Searchable PDF makes finding information easy – because documents are scanned into a searchable PDF format, you can easily send and share information with your team, clients or headquarters.

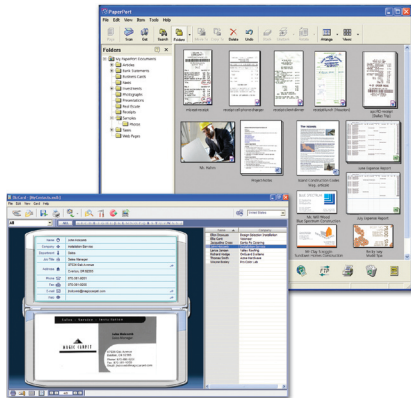

Card Scanner 200

NewSoft Presto! BizCard

NewSoft Presto! BizCard is the ideal tool for helping you stay in touch with your worldwide contacts whether their business cards are printed in English or a pan-European language. Presto! BizCard quickly and easily converts the vital contact information on business cards into a convenient, searchable, digital database that can be easily synchronised between PC's notebooks, PDAs and PIMs.

Combined with OCR and colour detection technology, printed characters are accurately recognised regardless of card font or colour in seconds. Contacts can be sorted alphabetically, edited and additional business or personal information can be added beyond what had been printed on the cards for even greater application flexibility. Card management that is so easy you'll never worry about finding the right contact again!

Visioneer OneTouch® & AutoLaunch®

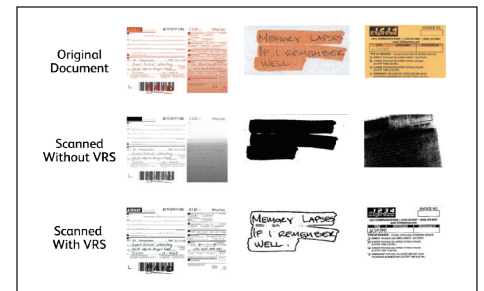

Visioneer OneTouch is an easy to use utility that connects the buttons on the scanner with a powerful set of scanner settings to greatly improve the efficiency of your workflow – so that with one touch, the document is scanned automatically to BizCard, PaperPort, email, Word, your Printer, or simply a file folder. Business cards, receipts, photos and other documents can be configured for easy scanning to the destination application of your choice.

AutoLaunch is a patented technology that allows scanning to begin as soon as you insert the card or document into the scanner. For example, if you scan business cards primarily to one application such as BizCard, why not simplify the scanning process even further. Just insert the card – the scan settings are maintained and scanning is about as easy as you can imagine!

Kofax VRS technology

The Xerox Card Scanner 200 integrates Kofax® VRS™ (VirtualReScan®) image enhancement technology into the OneTouch scanning process. Imperfect originals are automatically turned into perfect scans that are easier to read. OCR results are dramatically improved, file size is decreased and scans look as clear as the originals. Every page is custom corrected automatically so you can batch together clean, laser quality documents with your imperfect originals – the results are amazing. Business cards especially vary widely in quality and design, VRS assures the best scanning results.

Nuance PaperPort

Millions of professionals rely on PaperPort to save time and money by transforming paper documents into searchable digital documents. PaperPort combines the efficiency of document management, the convenience of superbly scanned documents and the power of creating PDF files, to bring a new level of operational proficiency to your organisation.

Xerox Card Scanner Product Specifications

Xerox Part No.	003R98789
Optical Resolution	600 dpi
Output Bit Depth	24-bit colour, 8-bit greyscale, 1-bit black & white
Scan Method	Single Pass, Simplex
Scan Speed	
Business Cards:	3 secs/card @ 300 dpi greyscale or colour
A6:	7 secs/page @ 300 dpi greyscale or colour
Scan Area	Maximum: 104 x 152 mm (4.1" x 6") with longer length scanning up to 914 mm (36") Minimum: 33 x 43 mm (1.3" x 1.7")
Interface	Hi-Speed USB 2.0 (USB 1.1 compatible)
Technology	Advanced Colour CIS (Contact Image Sensor)
Dimensions (width x depth x height)	174.5 x 60.5 x 38.5 mm (6.9" x 2.4" x 1.5")
Weight	Approx. 194g / 0.43 lbs
Power Consumption Operation	2.5 watts maximum, idle: 0.7 watts

Minimum System Requirements

- Pentium IV or equivalent processor
- Windows 2000/XP/Vista
- 512MB RAM (1GB RAM for Vista)
- 350MB available hard disk space
- DVD-ROM Drive
- USB Port

Contents

- Card Scanner 200
- Travel Bag
- USB Cable
- Calibration and Cleaning Sheets
- Quick Install Card
- User's Manual on DVD
- DVD-ROM including:
 - NewSoft Presto! BizCard
 - ArcSoft PhotoImpression
 - Nuance PaperPort
 - Visioneer OneTouch with Kofax VRS technology
 - TWAIN & WIA Drivers
